

THE GAZETTE.

TUESDAY EVENING AUGUST 14, 1894.

THE SMALLEST ELECTRIC ROAD.—On the banks of White Bear Lake, 15 miles from St. Paul, Minn., lies Dellwood, one of the numerous summer resorts of the Minnesota lakes. Between the railway station and one of the beautiful summer homes, a distance of about 600 feet, is what is no doubt the smallest electric railway known, capable of actually transporting passengers and freight. The entire road was built and equipped by A. M. P. Cowley, a St. Paul banker, for the amusement and instruction of his son, Archie, a bright lad of 7 years, who acts as motorman, conductor and brakeman with all the dignity and capability of a veteran in the service, not only giving his sisters and playmates frequent "excursions," but also doing an extensive passenger, freight and express business between the two termini. The length of the road is a trifle over a tenth of a mile and the equipment consists of a motor car and two trailers, each car being five feet long by two feet wide. The gauge of the road is 14 inches, the rails being regular steel T rails, weighing 24 pounds per yard. The rails are laid on 2 by 4 inch pine ties and bonded with No. 14 copper wire. Instead of the overhead trolley, the third rail system is used, the third "rail" consisting of a flat iron strip 1 by 1 inch nailed on a wooden strip between the two rails.

MEDICINAL.

CASTORIA
for Infants and Children.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach."

SEE.

The reason so many people, even children, now wear spectacles is not because the sight is more defective than formerly, but that the Doctors and Opticians are more skillful in correcting defective vision. I am prepared to fill any prescription for compound cylindrical glasses. I keep a full assortment of the finest and most accurately centered lenses, especially for prescription work. The glasses ought to be the proper size and the frame fit exactly to the face to give comfort and good sight. I have the most improved instruments for measuring the pupillary distance to the eyes, height and shape of nose and width of face. I also keep the medium and lower grade Glasses so I can suit every body in prices. I have reduced the Annual tinted glasses to \$1. I have a full assortment of those fine Celluloid Framed Eye Glasses, regular price \$2; I do not want to continue this line and offer them at 75 cents a pair. Genuine Brazilian Pebble \$2 a pair. Diamond Spectacles, regular price \$2, reduced to \$1. Smoked and any other color Glasses from 25 cents to the finest quality. Spectacles repaired, new lenses put in, old frames and new frames to old lenses and any other kind of work done.
